AGENT THAT SPEAKS IN YOUR VOICE.

More value from every conversation.

Happier customers

Fast, helpful answers, any hour.

More enquiries into sales

Guide every lead to the next step.

Repeat questions, automated

Answer once. AI handles the rest.

A more productive team

Free people for high-value work.

Less chasing. More connecting.

Sounds familiar?

Your team is stretched. Customers are waiting. The same questions keep coming.

Messages everywhere?

Bring every channel into one inbox.

Same question, again?

Let AI handle the routine answers.

Follow-ups slipping?

Automate next steps so leads keep moving.

Bot sounds robotic?

Give it a voice that fits your brand.

Your bot. Your language. Your brand.

Set the tone of voice to match your identity.

Many channels. One inbox.

INTERACTIC AI

So sorry, Karim! I can see the crack in your photo. A replacement ships today, tracking to follow here.

Voice notes, photos, documents, slang and dialects: **your agent understands them all.**

AGENT THAT SPEAKS IN YOUR VOICE.

Put the routine on autopilot.

AI handles the everyday. Your team steps in only when it matters.

1 · MESSAGE

A customer reaches out

2 · UNDERSTAND

AI answers and captures needs

3 · ACT

It guides the next step

4 · HAND OVER

Your team takes over, with full context

No code. No consultants. **Just switch it on.**

No code

Point, click, done.

Learns your business

From your site and docs.

Tweak anytime

Changes go live instantly.

Workflows that read like a sentence.

Set the trigger, pick the action. Done.

WHEN "Where is my order?"

THEN Fetch it from your store

AND Reply with live status

WHEN A new lead says hi

THEN Collect name and needs

AND Save to your CRM

WHEN "Can I talk to a person?"

THEN Hand over with context

AND Alert your team

Plugs into the tools you already use.
